Summary

Innovative and results-driven Full Stack Engineer with a strong foundation in web development, data analysis, and software engineering. Proficient in both frontend and backend technologies, with a keen eye for creating intuitive and user-friendly applications. Adept at problem-solving, continuously learning, and adapting to new challenges. Seeking opportunities to leverage my skills in a dynamic and growth-oriented environment.

Education

University of Nairobi - B.Sc. in Economics and Statistics (2021 - Expected Graduation: 2025)

ALX Africa - Software Engineering Program (2023 - 2024)

St. Stephens Boys High School - Graduated with B+ (2016 - 2020)

Skills

Web Development: Full Stack Development, CRUD Applications, Admin Dashboards, User Authentication, Secure Checkout Processes

Data Analysis: Data Visualization, Intuitive Dashboards, Data Cleaning, Quality Assurance

Programming: Clean Code Practices, Problem Solving, Continuous Learning

Web Design: User-Friendly and Responsive Websites, UX/UI Design

Accounting: Preparation of Financial Statements, Tax Accounting

Tech Stack

Frontend: Refine, Next.js, React.js, jQuery, HTML5, CSS, Tailwind CSS, JavaScript, TypeScript

Backend: Express, MongoDB, GraphQL, Python, SQL

Projects

E-commerce Website for Selling Motorcycles: Developed a comprehensive e-commerce platform for a client, featuring user authentication, product listings, shopping cart functionality, and a secure checkout process. Technologies used: Next.js, React.js, Express, MongoDB.

Portfolio Website: Created a personal portfolio website to showcase my projects and skills in web development and data analysis. Visit: dev-fredrick.vercel.app.

Personal Projects: Designed and developed various web applications and dashboards to enhance my expertise in full stack development and data visualization. Focused on creating CRUD applications and admin dashboards tailored to diverse business requirements.

Professional Attributes

Continuous Learner: Committed to learning and adapting to new challenges and technologies.

Problem Solver: Strong analytical skills with a meticulous approach to problem-solving.

Team Player: Effective communicator with excellent collaboration skills.

Innovative: Creative thinker with a passion for developing efficient and scalable solutions.
